RE: IAQ - SECOND HAND SMOKE PROPOSED RULING

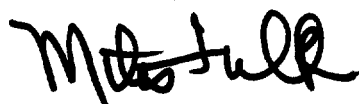

As an employee of a major corporation, I am concerned with safety in the workplace. I feel OSHA does an excellent job protecting the American worker from accidents on the job.

However, this proposed ruling goes way too far. It is no more than a ban on cigarettes that the anti-smoker wants to slide past the American public as a "Clean Air" issue. No matter how you try to dress it up, it is a wolf in sheep's clothing. It is *Prohibition*, nothing more. I do not smoke but I place great value on my privacy and my personal freedoms as well as the rights of the millions of Americans that chose to smoke.

The present laws are sufficient. They do an excellent job of keeping in check those few smokers that have little regard for others. Most of the smokers that I know are very courteous. There is no need for the federal government to further regulate smoking.

OPPOSE PROHIBITION - VOTE NO

Sincerely,

Miles S. Fulk
